

Washington **FIRST** Robotics

"The sport of science, technology and teamwork."

ANNUAL REPORT

2014-2015

OUR MISSION

“To inspire young people to be science and technology leaders, by engaging them in exciting mentor-based programs that build science, engineering and technology skills, that inspire innovation, and that foster well-rounded life capabilities including self-confidence, communication, and leadership.”

EXECUTIVE SUMMARY

Dear Community,

Washington *FIRST* Robotics is an amazing organization dedicated to inspiring youth to be science and technology leaders through the four *FIRST* K-12 robotics programs. The 2014-2015 *FIRST* competition season has given us the opportunity to spread awareness about the impact *FIRST* programs and to show kids that science, technology, engineering, and math can be fun and exciting. Because of the incredible support that we receive from the *FIRST* community, we are one step closer to inspiring all youth in Washington State to discover their passions in the world of science, technology, engineering, and math (STEM).

Today we have 11,239 youth comprising 975 teams engaging in this sport of science, technology, and teamwork. This year, 5,120 adult coaches and mentors and 1,324 event volunteers shared their passion for science and technology with the *FIRST* students that they work with on a daily or weekly basis. All of these efforts are made possible through the generosity of people and companies across Washington State as well as the support from our national partner U.S. *FIRST*.

Together, we are not only creating the next generation of engineers, computer programmers, and scientists, we are creating future community leaders. We look forward to next year!

Sincerely,

Geoff Deane

Chair, Washington *FIRST* Robotics

Vice President and General Manager,
Intellectual Ventures

Electical Engineer and Electrophysic Scientist, The Boeing Company
Years Volunteering: 4

Why do you volunteer for *FIRST*?

"I volunteer because I not only love the four *FIRST* programs that foster kids' interest in science and technology, but because I adore the people I volunteer with. Whether I am working with key/event volunteers or team mentors, the people always make me feel like I am part of a truly supportive, caring community. Washington *FIRST* Robotics is more than the programs to me – it's a community of people with the same goal of getting kids involved in STEM while building some cool robots and working with each other to make sure that each and every event is successful for the students involved."

2014-2015 MICHAEL CAMPBELL SCHOLARSHIP AWARD

Austin Kukay
 Auburn Mountainview High School
 Auburn, Washington

Congratulations to Austin Kukay, the 2015 Michael Campbell Scholarship recipient! Austin was given a \$2,500 college scholarship made possible by Washington *FIRST* Robotics Board of Directors.

Austin is a Senior at Auburn Mountainview High School and a member of *FIRST* Robotics Competition team #2907 Lion Robotics. He has been involved with *FIRST* throughout his entire academic career, participating on FLL, FTC, and FRC teams.

During summer 2014, Austin was an intern at Washington *FIRST* Robotics where he served as a FLL Robot Summer Camp Counselor and was instrumental in file management. During the school year, Austin led the planning of many *FIRST* events, such as the Geek Gala and various Jr.FLL Expos.

He is planning to major in Nanotechnology at the University of Washington in autumn 2015. He hopes to expand the awareness of *FIRST* programs at the University of Washington during his college career.

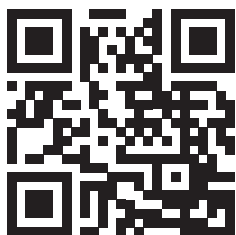

Washington **FIRST** Robotics

"The sport of science, technology and teamwork."
