

MISSION CHALLENGE

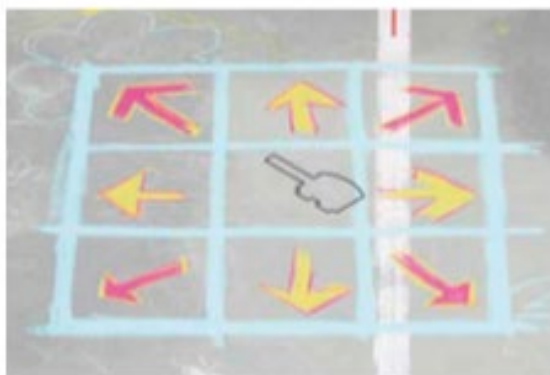

WEEK # 1 – Starts 10/6

Rules: To accept this challenge, your team must submit a video of your robot completing one of the two challenge missions presented. Your robot must start from the launch area and complete the mission according to the **official** rules. It does not need to return home unless required by the mission. Also submit a copy of the mission program (screen shots are acceptable). You may optionally submit separate entries for both missions. Each completed mission will earn the team a raffle ticket in a drawing for a prize and a certificate of completion!

Begin with the End in Mind.

M07 Robot Dance

Easier

Dance Floor

Your robot's controller is at least partly over the dance floor in a "dancing" motion.

M06b Pull-up Bar (Hang)

Harder

The pull-up bar holds 100% of your robot up off the mat.
