

MISSION CHALLENGE

WEEK # 5 – Starts 12/08

Rules: To accept this challenge, your team must submit a video of your robot completing one of the two challenge missions presented. Your robot must start from the launch area and complete the mission according to the **official** rules. It does not need to return home unless required by the mission. Also submit a copy of the mission program (screen shots are acceptable). You may optionally submit separate entries for both missions. Each completed mission will earn the team a raffle ticket in a drawing for a prize and a certificate of completion!

Flip Flop

M10 Cell Phone

Easier

The robot flips the cell phone white side up.

M09 Tire Flip

Harder

The robot flips tires so their white centers face up and moves them into their large target circle.
