

Numbers in Pits

Participants

For week 1, we are not going to set a limitation to the number of participants allowed in the pits. We want teams to be able to:

- Work on their robot
- Pit scout
- Talk to judges
- Support other teams in need
- Have **some** students roaming the pits checking out what other teams are doing

We can not have the congestion in the pits that we have had in the past so we are asking that you please **self regulate your numbers in the pits**. If you as coaches & mentors can work with your team to limit numbers on your own, we won't have to limit them for you. As long as we don't see congestion in the pits, life will be good!

Spectators

Each team will be given 5 pit passes at their **first event**. These passes can be shared among their spectators to allow them access to the pits. You will only get these passes at **your first event** so please do not lose them.
