

WHO is FIRST Washington?

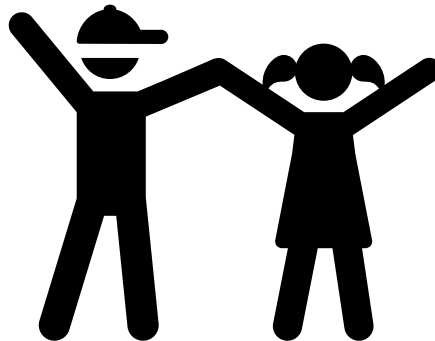

FIRST Washington's vision is to empower more young people from diverse backgrounds to become leaders and innovators in STEM. Our mission is to inspire diverse young people to participate in team-based STEM programs supported by a knowledgeable volunteer community.

WHAT is FIRST LEGO League Challenge?

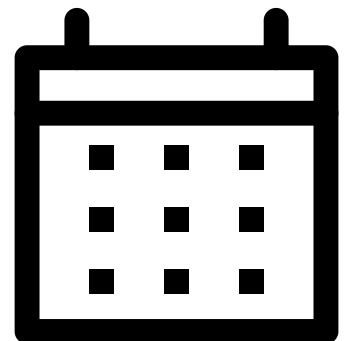

Each year, FIRST® provides teams around the world with an annual challenge that is based on a set of real-world problems. FLL Challenge teams will work together to complete the challenges two parts: the Robot Game and the Project. FLL Challenge is preparing kids to be STEM leaders by approaching robotics as a team sport rather than a classroom subject.

Students: grades 4 - 8

Team: 2 adults and up to 10 kids

Season Length: Sept. - Jan.

Registration Period: May 2023 - September 2023

Experience: No experience required for students, mentors, or coaches!

FIRST LEGO League Challenge consists of the Innovation Project, Robot Design and Game Play.
