2026 OREGON STATE FAIR

DISTRICT EVENT

Competition Schedule

Thursday, March 5, 2026 (Day 0)	
5:00PM - 8:00PM	Pits Open, Inspections, Load In Period

Friday, March 6, 2026 (Day 1)	
8:00AM - 11:00AM	Pits Open, Inspections
8:30AM - 9:00AM	Drivers Meeting
9:00AM - 9:30AM	Field Calibration
9:30AM - 10:45AM	Practice Matches
11:00AM - 11:15AM	Opening Ceremonies
11:15AM - 1:00PM	Qualification matches
1:00PM - 2:00PM	Lunch
2:00PM - 8:30PM	Qualification Matches
8:30PM	Pits Close

Saturday, March 7, 2026 (Day 2)	
8:00AM	Pits Open
9:00AM - 9:15AM	Opening Ceremonies
9:15AM - 11:30AM	Qualification Matches
~11:30AM - 12:00PM	Alliance Selections (begins 8 minutes after the end of Qualification Matches)
12:00PM - 1:00PM	Lunch
1:00PM - 4:00PM	Playoff Matches & Awards Ceremony
~4:00PM	Pits close 30 minutes following the close of the Closing Ceremony

Activities Schedule

(Day 1) Menstrual Equity Host: 1540	
No Host	Quiet Room
8:30 AM	Drivers Meeting
1:00 PM	St. Photo on comp field
3:00 PM - 4:00 PM	Leadership Listening session with Adrienne - In Volunteer Lounge
End of Matches	Alum Photo on the comp field

(Day 2) Menstrual Equity Host: 1540	
No Host	Quiet Room
7:00 AM	Mentor Coffee (See Pit Admin for location)
8:45 AM	Line up for Mascot Parade

*Schedule subject to change. All times are estimated based on flow of rounds.

See Pit Administration table for updated times.

Oregon State Fair

Is a Thursday, Friday, Saturday event

Day 0 is Thursday

Day 1 is Friday

Day 2 is Saturday

To lessen confusion, the rest of this presentation will talk about Day 0, Day 1 and Day 2

District Event RSVP

For each of your district events, we need you to RSVP on

<https://firstwa.org/frc-rsvp/>

On the form, please fill in:

- Which event you are RSVPing for
- The onsite main contact for each team
- We need a contact **mobile phone** number for your team – **Please don't list a school number, you are not at the school when we need to reach you!**
- Tell us if you need a table, or you won't get one!
- Please do this by **Friday, 2-21-26** (if you fill it out after this, you will not be guaranteed a table)

Logistics: Where is the event?

Load-In

Follow instructions from onsite staff. (Load in map on previous slide)

You may NOT park in the loading area. The driver MUST stay with the vehicle. Drop it and park in designated area. Staff your unload team appropriately to make this happen.

Bring a cart! You will need a cart with at least 3" diameter wheels. Our cable protection bumps are 2" in height. We recommend 4" or larger wheels.

Load in day is not final build day, your goal is to pass inspection load in day!

Please note, the load in period is from 5 pm to 8 pm, your team must load in during that period.

- Turn on Lana Ave NE
- When Lana veers to the right, continue straight
- Turn right at the pavilion
- You will unload at the end of the building
- Head back out to Lana Ave
- Turn right on Lana Ave
- Turn right into the parking lot

Once you have loaded in, please proceed to the parking area. Your vehicle may get locked in if you park in other areas.

Parking

There is plenty of parking at this venue

You may park trailers at the venue.

- Don't leave them overnight

Trailer Parking

You may park your trailer at the venue on Day 0 after load in as well as on Day 2

Please do not leave trailers overnight

Arrival & Parking Days 1 & 2

Please arrive after 8:00 am

Please do not arrive before 8:00 am!

Please do not show up early!

- The doors may be open, please don't come inside until 8:00 am. We are using our volunteer resources to prepare for a great competition day and don't want to have to use them to stand guard at the doors!
- If you show up early, expect to wait outside the building even if the weather is bad

Logistics: Food

Concessions: There will be no concessions at this event.

Bringing Food?

- You may bring food into this event
- There are places to set up food around the arena
- Please don't set up your food for the entire weekend, you will need to take it with you every night when you leave.
- Please don't plug in crock pots to keep food warm, make other arrangements.

Clean up after yourself

About the pit Power

Pit power is limited. We are putting up to 6 teams on a single 20 amp circuit

- Charge your batteries overnight at home / hotel
 - (Remember: 12 rounds may require several batteries)
- No compressors or other large motors
- Limit 400 watts per team, 2400 watts per 6 team Power Alliance
- Lighting should go with low wattage

High school gyms have very little power

- You may NOT use any outlets in the gym
- The game equipment uses all available power
- We will remove and confiscate any equipment from gym outlets until after awards ceremony on Saturday. **You have been warned!**

Safety Glasses

Teams are expected to provide safety glasses for their team members and spectators to use in the pits

At this venue we have 2 access points at the pits and will need teams to sign up to man safety glass tables at each entry point

We will not be handing out any safety glasses out to teams at this event.

Team Volunteer Requirements

All teams will be required to help staff the safety glass table.

Though we will do not hand out safety glasses, we will need 2 people at a table at the entrance to the pits checking to be sure anyone entering the pits is wearing safety glasses. Please sign up for a slot when you check-in your team.

Other event volunteer opportunities include Practice Field staff, field reset, queueing, ambassadors.

Additional Volunteer Needs

Adult Roles

4 - Judges

3 - Robot Inspectors

1 - JAA

1 - Practice Field Attendant

2 - Safety Attendants

Student or Adult Roles

7 - Field Reset

1 - Practice Field Attendant

Test Area rules and changes

Test Area (Formerly called the practice field)

FIRST Robotics Competition events have TEST AREAS. TEST AREAS are areas at events where teams can test their ROBOT with representative FIELD elements. Teams may also be able to test their starting AUTO modes but TEST AREAS are not designed for full FIELD play such as AUTO modes that traverse larger areas of the FIELD or interact with multiple FIELD elements. TEST AREAS are tether-only. FUEL is not provided and if a team wishes to practice with FUEL, they must bring their own.

FIRST provides a recommended layout, but events may need to tweak exact placement depending on the space available in the venue. **Teams may not relocate elements from their original locations.** The layout is specifically intended to discourage testing of complex AUTO routines.

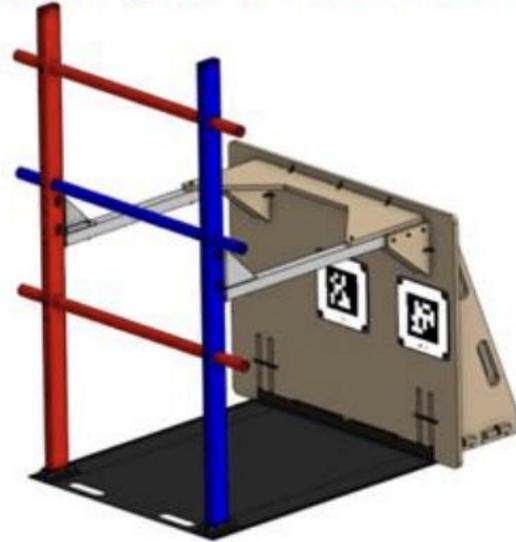

Test Area safety

There are safety concerns with the test area tower:

- There is no weight on the back of the tower to prevent tipping when a robot climbs
- A person (an adult from the team planning to hang on the tower) needs to stand on the back of the tower to prevent tipping
 - This person needs to be paying attention to what is going on with the robot to ensure safety

REBUILT™

PRESENTED BY **HAS**
Gene Haas Foundation

Team Support – Test area

Because of the safety concerns with the tower, it is critical that the test area has an adult monitoring it at all times. We are working to staff it on competition days (Days 1 & 2) but need help on load in day (Day 0)

- We would like 1 team at each event to sign up to set up the test area as well as provide an adult to monitor that area once it is set up until pits close. Unlike in prior years, we will not be able to have the test area open if we don't have an adult volunteer monitoring the area.
- If you are willing to be one of our test area set up teams, please email Adrienne Collins at acollins@firstwa.org. Please include your team number and the event(s) you are willing to support in the subject line

Thank you all for your help keeping our students safe!

Schedule Overview: Whole Event

Day 0:

- Load in and inspection

Day 1:

- Inspection,
- Driver & Coaches Meeting will be at 8:30 am **Keep in mind inspection AND judging is also happening at this time so plan accordingly.**
- Practice matches
- Qualification Matches

Day 2 AM:

- Qualification Matches

Day 2 PM:

- Final Rounds / Team Departures

RESTROOM FEMALE

2026 PNW FIRST® ROBOTICS COMPETITION OREGON STATE FAIR DISTRICT EVENT

*Map reference only, not drawn to scale

Wheel requirements for carts, boxes, and anything rolling

Our venues will have power cord covers (aka Yellow Jackets)

- Our yellow jackets are 2" tall

Your FRC robot cart **MUST** have > 3" diameter wheels

- Wheels must be in good working order. No damaged or stuck wheels. Soft rubber. No hard plastic or steel tread wheels.
- Maximum weight for your carts, tool boxes, etc will be 50 lbs per inch of wheel size (1 cart, 4 x 3" wheels, 600lbs max)

Under no circumstances will we allow wheels less than 3" in diameter on ANY equipment / boxes / carts

- Very high likelihood of damage to floors
- You won't clear our cable management equipment

All wheels must be non marking rubber or synthetic wheels

- No steel wheels. No sharp wheels.

Who to bring Day 0

You really want your core robot builders and mentors Day 0.

Depending on your teams logistics, you might consider having a partial team Day 0 and the whole team Day's 1 & 2.

Day 0 is NOT a good spectator day

- It is ALL in the pits Day 0.

Day 0: Inspection Process: 5PM

Inspection involves 4 steps

- Size and weigh-in at the inspection station
- Control system inspection at the CSA station
- Physical robot inspection at your pit starting 5PM
- Connection to the field controller at least once by Day 1 morning
 - Our goal is for you to be able to connect Day 0 night if you are ready.

Inspectors are your friend! Inspectors are here to help get you on the field safely and fairly. They will help you pass inspection.

Starting the inspection process

You may enter the weight / size line at any time after 5PM Day 0.

After weight and size, stop at the CSA desk for the control software check.

You may sign up at the Inspection desk for an in-pit inspection appointment starting at 5 PM. We invite you to sign up early.

Inspection Tips

It is rare for a robot to pass inspection on the first attempt. It is an iterative process.

PLEASE: Get inspected early, even if you are not ready. You might have an issue that takes time to fix.

All teams must connect to field as part of inspection.

You **MUST** pass inspection to earn qualifying points.

WPA Key Assignment

Your robot radio (WPA Key) must be reprogrammed at each event you attend.

This is required to connect & compete at the field.

A kiosk (with instructions) is provided for you to program your radio.

- The kiosk will be located at inspection or pit admin

Word to the Wise

Day 0 is not the final build day. It is pass inspection day!

Do not be bashful about asking for help. We have all been there before.

What you should bring to check in

Team Rosters with all your team information to **EACH** of your events (including handwritten consent forms for anyone not listed on your printed roster) – The expectation is that your students/mentors have registered online, please only bring printed rosters for those who absolutely can't get registered online

All cords should be labeled with your team number on BOTH ends so we can figure out what plugs in where.

You **MUST BRING YOUR OWN SAFETY GLASSES**

- For your entire team, parents, mentors and **visitors**
- We will not have safety glasses on site for participants or spectators

Veteran Teams

Bring Spare Parts

Please consider bringing unused sensors, motors, control units, and hardware for loan to other teams.

Please look around and if you see a team in need, take time to help get their robot ready to compete!

End of Day 0

The pits close at 8:00PM on Day 0.

You **MUST BE OUT OF THE BUILDING** before 8:00PM.

We dislike doing it, but we will come lead you out of the building starting at 7:55PM. No exceptions.

Drivers Meeting at 8:30 am Day 1

- The Drivers Meeting is scheduled for 8:30 pm Day 1
- The Q & A will be handled a like last year
 - Pit Admin will have a paper Q & A forms
 - Team members can fill out the form with their questions and turn them in at Pit Admin
 - The deadline to turn in forms is **prior to pits closing Day 0**
 - Forms turned in on Day 1 may not be addressed at the drivers meeting
 - **Remember, judging and inspection are both happening during the morning as well. Make sure you have students in your pits.**

Practice Rounds: Day 1 morning

Practice matches are scheduled, and will run Day 1 according to the schedule the FTA's put together

It is very common for teams not to be ready for their scheduled match in the mornings. We will accept teams on a first come/first served basis who wish to take an unscheduled practice round. Check in with the Lead Queuer to get on the list. **You must be through inspection to get on the list for unscheduled practice matches.**

Priority will always be given to teams scheduled and/or teams who have not been on the field at least once. Be gracious and professional if you get bumped for a higher priority team.

Connecting to the field: The Final Step

If you run a practice match during Day 1 morning, the field computer will remember that as your last step of the inspection process.

If you are unable to make a practice match, we are going to ask you to take your robot and control system out to the field for a quick 5 minute test to ensure your system can connect to the field. Your robot will not be on the field, we will simply connect it to the field while sitting on your cart.

THIS IS A MANDATORY STEP!

Many simple issues are solved by doing this that would otherwise cause you problems when it really counts!

Machine Shop Open: Day 1

We have a volunteer machine shop onsite to help you fabricate replacement parts.

The shop has small mills, lathes, and various other tools.

ONLY AUTHORIZED MACHINE SHOP VOLUNTEERS MAY USE THESE TOOLS!

We have excellent volunteer machinists. However, there are limits to what they can do for your team.

We **may** have a TIG welder

The machine shop has request forms for your team. It will be located near the loading ramp on the arena floor.

In general, the machine shop will NOT loan you tools.

Day 2: Load Out

No parking in load out area.

Load out during playoff rounds on Day 2 is fine

Reminder, if you have agreed to be a backup robot, you should wait to load out so you can be prepared to compete if needed.

Activities/Workshops

Menstrual Equity Host: 1540

Quiet Room: No Quiet Room at this event

Activities:

- Sr Photo on the field 1 pm Day 1
- Leadership Listening Session with Adrienne Collins 3-4 pm Day 1
- Alumni Photo on the field end of matches Day 1
- Mentor Coffee Day 2: 7am

FIRSTWA Listening Session

Hosted by FIRSTWA staff and community members

FIRSTWA strives to make your team's experience the best it can be!

Support us in this mission by dropping by our listening session and telling us:

- What is working for your team
- What has negatively impacted your team
- Where you most need support

Sessions will be held at all FRC District Events and the District Championship Event.

Please see the individual event schedules for workshop date and time.

Nexus App

We will be the Nexus app at our events this year. We are hoping that it makes queueing easier both for teams and volunteers.

Note: **This does not replace the queueing volunteers. If a volunteer is asking you to queue, follow their direction please.**

With the queueing app, you will be able to:

- Set up notifications for up to 8 people
- Set up notifications for 1 channel (slack or discord)
- Anyone can look on their phone to see who is being queued

Nexus App continued...

New this year! You will be able to make parts requests through the Nexus App

You can find more info on how to use the app here: <https://frc.nexus/en/guide/team>

You will receive a QR code in your check in packet that will help you set up the team members to be notified.

Note: This is not an official FIRST app and we do not guarantee that it is accurate but hope as our queueing team gets comfortable with the app, it will be a helpful tool to teams. If a queuer comes to get you in your pit, please follow their instructions.

Backups

If you are not chosen for an alliance, please stick around in the “alliance selection area” for a few moments. Our Lead Queuer will be coming around with a form asking if you can/will stay around to be a back up.

- Please be prepared to answer this question in the event you are not picked for an alliance
- Be sure you understand your ranking at the end of alliance selection and are prepared to compete!
- Alliances, make sure you understand the rules for calling a back up.

Finals	16*		W13	W11	0:18	0:18		
Awards: Remaining awards, Finalists, Winners, and FIRST Impact Award								

What to know

During the quarter & semi final rounds

- There is a upper bracket and a lower bracket so you will not play the same team in every match
- You are out after 2 losses
- There is one 6 minute break prior to the awards breaks
- Match cycle times will be slower than the qualification rounds

What to know

During the finals rounds

- This round is the best 2 out of 3 (Does not matter if you have a loss from the quarter or semi final rounds)
- There are 15 minute breaks between each round
- We will hand out awards during the 15 minute breaks
 - There may be times when the awards take longer than 15 minutes, however, **the expectation is that your team will be prepared to take the field at the end of 15 minutes.**

FIRST Washington Safety Plan for events

Event Safety Information

FIRST Washington events will follow the Standard Response Protocol (SRP) to manage incident responses

What should coaches do?

- Remind your team of existing safety plans
- Identify a team assembly point outside each event venue
 - This is where team members can meet up in case of an evacuation
 - It may also be a good place to meet before leaving the venue
- Tell your team about the SRP

What is the SRP?

Rather than a different response for every scenario, the SRP provides specific vocabulary for just 5 actions that can be used to respond to a variety of scenarios

Learn more at iloveugguys.org

Posters will be placed in key locations at events explaining the 5 actions

HOLD

SECURE
