

Support **BARK BOTS** Robotics

2026/2027 Competition Season

WHO WE ARE

The Bark Bots Boosters are parents, mentors, and supporters of the Mount Vernon High School robotics team (FRC Team 4173). We support students participating in FIRST Robotics—an international program where teams design, build, and program a robot to compete in a new engineering challenge each year.

PURPOSE

Our goal is to raise **\$25,000** to fund the 2027 robotics season, including:

- Competition registration fees
- Robot design and build materials
- Travel, lodging, and team operations

WHY HELP?

Your support helps provide students with:

- Hands-on STEM experience
- Real-world engineering and programming skills
- Teamwork, leadership, and problem-solving opportunities
- Access to a program that prepares them for college and careers

Scan to Donate

The Boosters also work to ensure **every student can participate**, regardless of financial barriers.

ACTION REQUESTED

We're asking friends and family to consider making a donation of any size. Every dollar goes directly toward supporting the team and helping students participate in the 2027 season.

HOW TO DONATE

barkbots4173.wixsite.com/barkbots

(Use the **Donate!** button or scan the QR code above.)

Or directly:

secure.givelively.org/donate/washington-first-robotics/imvert

BY CHECK

Payable to: **FIRSTWA** (w/ "**Team 4173**" in memo)

Mail to:

FIRST Washington
22426 72nd Ave S
Kent, WA 98032

OTHER WAYS TO CONTRIBUTE

- Share this flyer with others who may be interested
- Connect us with potential sponsors or businesses
- Help spread the word in your community

THANK YOU! Your support helps students build, learn, compete, and discover what they're capable of.
